C.S.B.Circular ------No. 17. Simla, the 6th November 1903.

To:- All Special Branches.

--

Great difficulty is often experienced by the Frontier Officers when asked to trace the antecedents of Pathans, Baluc & other frontier and trans-frontier men whose proceedings are noticed in the Provincial Special Branch Abstracts, owing to t meagre information originally supplied by the local officials It is a favourite dodge for men from the Baluchistan border t say they come from Pishin. This may sound like the name of a village, whereas it is a sub-division of the Quetta district. Similarly men from the Peshawar side often say vaguely that t come from Khorasan or Swat-Buner, and this is not infrequently accepted without demur.

2. I am, therefore, to request that all Officers concerned ma be instructed, when supplying information about persons of the classes referred to, to give, in addition to the man's own name his father's name, his tribe, and section of his tribe to which belongs, his native village with the name of the district in which it is situated, and, if possible, the names of the headman and Mullas of his village. Also the man's full description. the case of arrested suspects, their thumb impressions should invariably be forwarded to this office.

3. It is probable that Pathans down-country purposely

give as little information about their relations and residence in or beyond the frontier as possible, and it is desirable that Police Officers and others should insist on full details being given, whenever it is desired that further enquiries should be instituted into a suspects's antecedents.
